 - (i) each of the non-originating materials used in the production of the good undergoes an applicable change in tariff classification specified in Annex 4-A (Specific Rules of Origin for Textile or Apparel Goods) or Annex 6-A, or
 - (ii) the good otherwise satisfies any applicable regional value content or other requirements specified in Annex 4-A or Annex 6-A,and the good satisfies all other applicable requirements of this Chapter; or
- (c) produced entirely in the territory of one or both of the Parties exclusively from originating materials.

ARTICLE 6.2: REGIONAL VALUE CONTENT

1. Where Annex 6-A specifies a regional value content test to determine whether a good is originating, each Party shall provide that the importer, exporter, or producer may calculate regional value content based on one or the other of the following methods:

- (a) Method Based on Value of Non-Originating Materials (Build-down Method)

$$RVC = \frac{AV - VNM}{AV} \times 100$$

- (b) Method Based on Value of Originating Materials (Build-up Method)

$$RVC = \frac{VOM}{AV} \times 100$$

where,

¹ For greater certainty, whether a good is originating is not determinative of whether the good is also admissible.

RVC is the regional value content, expressed as a percentage;

AV is the adjusted value of the good;

VNM is the value of non-originating materials, other than indirect materials, acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced; and

VOM is the value of originating materials, other than indirect materials, acquired or self-produced and used by the producer in the production of the good.

2. Each Party shall provide that all costs considered for the calculation of regional value content shall be recorded and maintained in conformity with the Generally Accepted Accounting Principles applicable in the territory of the Party where the good is produced.

3. Where Annex 6-A specifies a regional value content test to determine if an automotive good² is originating, each Party shall provide that the importer, exporter, or producer may calculate the regional value content of that good as provided in paragraph 1 or based on the following method:

Net Cost Method (for Automotive Goods)

$$RVC = \frac{NC - VNM}{NC} \times 100$$

where,

RVC is the regional value content, expressed as a percentage;

NC is the net cost of the good; and

VNM is the value of non-originating materials, other than indirect materials, acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced.

4. Each Party shall provide that, for purposes of the regional value content method in paragraph 3, the importer, exporter, or producer may use a calculation averaged over the producer's fiscal year, using any one of the following categories, on the basis of all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of the other Party:

(a) the same model line of motor vehicles in the same class of vehicles produced in the same plant in the territory of a Party;

² Paragraph 3 applies solely to goods classified under the following HS headings and subheadings: 8407.31 through 8407.34 (engines), 8408.20 (diesel engines for vehicles), 84.09 (parts of engines), 87.01 through 87.05 (motor vehicles), 87.06 (chassis), 87.07 (bodies), and 87.08 (motor vehicle parts).

- (b) the same class of motor vehicles produced in the same plant in the territory of a Party; or
- (c) the same model line of motor vehicles produced in the territory of a Party.

5. Each Party shall provide that, for purposes of calculating regional value content under paragraph 3 for automotive materials³ produced in the same plant, an importer, exporter, or producer may use a calculation:

- (a) averaged,
 - (i) over the fiscal year of the motor vehicle producer to whom the good is sold;
 - (ii) over any quarter or month; or
 - (iii) over the fiscal year of the automotive materials producer,
provided that the good was produced during the fiscal year, quarter, or month forming the basis for the calculation;
- (b) in which the average in subparagraph (a) is calculated separately for such goods sold to one or more motor vehicle producers; or
- (c) in which the average in subparagraph (a) or (b) is calculated separately for those goods that are exported to the territory of the other Party.

ARTICLE 6.3: VALUE OF MATERIALS

Each Party shall provide that, for purposes of Articles 6.2 and 6.6, the value of a material shall be:

- (a) for a material imported by the producer of the good, the adjusted value of the material;

- (c) for a material that is self-produced,
 - (i) all the costs incurred in the production of the material, including general expenses; and

³ Paragraph 5 applies solely to automotive materials classified in the following HS headings and subheadings: 8407.31 through 8407.34 (engines), 8408.20 (diesel engines for vehicles), 84.09 (parts of engines), 87.06 (chassis), 87.07 (bodies), and 87.08 (motor vehicle parts).

Each Party shall provide that a good's standard accessories, spare parts, or tools delivered with the good shall be considered originating goods if the good is an originating good and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification, provided that:

- (a) the accessories, spare parts, or tools are classified with and not invoiced separately from the good; and

⁵ Nothing in Article 6.7 shall be construed to prevent a Party from requiring an importer to identify by percentage the country or countries of origin of fungible goods.

- (b) the quantities and value of the accessories, spare parts, or tools are customary for the good.

2. If a good is subject to a regional value content requirement, the value of the accessories, spare parts, or tools described in paragraph 1 shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

ARTICLE 6.9: SETS OF GOODS

1. Each Party shall provide that if goods are classified as a set as a result of the application of rule 3 of the General Rules of Interpretation of the Harmonized System, the set is originating only if each good in the set is originating.

ARTICLE 6.10: PACKAGING MATERIALS AND CONTAINERS FOR RETAIL SALE

1. 2. If a good is subject to a regional value content requirement, the value of packaging materials and containers described in paragraph 1 shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

- (b) does not remain under the control of customs authorities in the territory of a non-Party.

- (a) the customs value of the importation does not exceed 1,000 U.S. dollars or the equivalent amount in the currency of the importing Party, or such higher amount as may be established by the importing Party, unless the importing Party considers the importation to be part of a series of importations carried out or planned for the purpose of evading compliance with the Party's laws governing claims for preferential tariff treatment under this Agreement; or

- (b) it is a good for which the importing Party does not require the importer to present a certification or information demonstrating origin.

ARTICLE 6.17: RECORD KEEPING REQUIREMENTS

1. Each Party shall provide that an exporter or a producer in its territory that provides a certification in accordance with Article 6.15 shall maintain, for a minimum of five years from the date the certification was issued, all records necessary to demonstrate that a good for which the producer or exporter provided a certification was an originating good, including records concerning:

4. Each Party shall provide that an importer, exporter, or producer may choose to maintain the records specified in paragraph 1, 2, or 3 in any medium that allows for prompt retrieval, including, but not limited to, digital, electronic, optical, magnetic, or written form.

2. The Parties shall agree on procedures for conducting visits provided for in paragraph 1(c).

3. A Party may deny preferential tariff treatment to a good where:

- (a) the importer, exporter, or producer fails to provide information that the Party requested under paragraph 1(a) or 1(b) demonstrating that the good is an originating good;

- (c) the Party finds a pattern of conduct indicating that an importer, exporter, or producer has provided false or unsupported declarations or certifications that a good imported into its territory is an originating good.

4. If, as a result of a verification, a Party finds that a good is not originating, the Party shall provide the importer with a proposed determination to that effect and an opportunity to submit additional information demonstrating that the good is originating. Each Party shall provide that the importer may arrange for the exporter or producer to provide pertinent information directly to the Party.

5. After providing the importer with an opportunity to submit additional information pursuant to paragraph 4, the Party that conducted the verification shall provide the importer a final determination, in writing, of whether the good is originating. The Party's determination shall include factual findings and the legal basis for the determination. Where the exporter or producer has provided information pursuant to paragraph 1 or 4 directly to the Party conducting the verification, that Party shall endeavor to provide a copy of the determination to the exporter or producer that provided the information.

6. Where an importing Party determines through verification that an importer, exporter, or producer has engaged in a pattern of conduct in providing false or unsupported statements, declarations, or certifications that a good imported into its territory is originating, the Party may suspend preferential tariff treatment to identical goods covered by subsequent statements, declarations, or certifications by that importer,

exporter, or producer until the Party determines that the importer, exporter, or producer is in compliance with the requirements of this Chapter.

ARTICLE 6.19: OBLIGATIONS RELATING TO IMPORTATIONS

1. Each Party shall grant any claim for preferential tariff treatment made in accordance with this Chapter, unless the Party issues a written determination that the claim is invalid as a matter of law or fact.
2. A Party may deny preferential tariff treatment to a good if the importer fails to comply with any requirement in this Chapter.

 - (g) when a certification by the producer forms the basis for the claim, have in place, at the importer's option:
 - (i) an arrangement with the producer to provide; or
 - (ii) an arrangement with the exporter to have the producer provide,

all information relied on by the producer in making its certification; and

5. Each Party shall provide that, where a good was originating when it was imported into its territory, but the importer of the good did not make a claim for preferential tariff treatment at the time of importation, that importer may, no later than one year after the date of importation, make a claim for preferential tariff treatment and apply for a refund of any excess duties paid as a result of the good not having been accorded preferential tariff treatment, on presentation to the Party of:

1. Each Party shall provide that:

- (a) an exporter or a producer in its territory that has provided a written or electronic certification in accordance with Article 6.15 shall, on request, provide a copy to the exporting Party;
- (b) a false certification by an exporter or a producer in its territory that a good to be exported to the territory of the other Party is originating shall be subject to penalties equivalent to those that would apply to an importer in its territory that makes a false statement or representation in connection with an importation, with appropriate modifications; and
- (c) when an exporter or a producer in its territory has provided a certification and has reason to believe that the certification contains or is based on incorrect information, the exporter or producer shall promptly notify in writing every person to whom the exporter or producer provided the certification of any change that could affect the accuracy or validity of the certification.

2. Neither Party may impose penalties on an exporter or a producer for providing an incorrect certification if the exporter or producer voluntarily notifies in writing all persons to whom it has provided the certification that it was incorrect.

Product costs are costs that are associated with the production of a good and include the value of materials, direct labor costs, and direct overhead. Period costs are costs, other than product costs, that are expensed in the period in which they are incurred, such as selling expenses and general and administrative expenses. Other costs are all costs recorded on the books of the producer that are not product costs or period costs, such as interest. Total cost does not include profits that are earned by the producer, regardless of whether they are retained by the producer or paid

out to other persons as dividends, or taxes paid on those profits, including capital gains taxes;

used means utilized or consumed in the production of goods; and

value means the value of a good or material for purposes of calculating customs duties or for purposes of applying this Chapter.

ANNEX 6-A
SPECIFIC RULES OF ORIGIN

Part I – General Interpretative Notes

1. For purposes of interpreting the rules of origin set forth in this Annex:
 - (a) the specific rule, or specific set of rules, that applies to a particular heading or subheading is set out immediately adjacent to the heading or subheading;
 - (b) the requirement of a change in tariff classification applies only to non-originating materials;
 - (c) where a specific rule of origin is defined using the criterion of a change in tariff classification, and it is written to exclude tariff provisions at the level of a chapter, heading, or subheading of the Harmonized System, it shall be construed to mean that the rule of origin requires that materials classified in those excluded provisions be originating for the good to qualify as originating;
 - (d) when a heading or subheading is subject to alternative specific rules of origin, the rule will be considered to be met if a good satisfies one of the alternatives;
 - (e) when a single rule of origin is applicable to a group of **headings** or **subheadings** and that rule of origin specifies a change of **heading** or **subheading**, it shall be understood that the change in **heading** or **subheading** may occur from any other **heading** or **subheading**, as the case may be, including from any other **heading** or **subheading** within a designated group. When, however, a rule refers to a change in **heading or subheading** “outside that group” this shall be understood to require that the change in **heading or subheading** must occur from a **heading or subheading** that is outside the group of **headings** or **subheadings** set out in the rule;
 - (f) reference to weight in the rules for goods provided for in Chapters 1 through 24 of the Harmonized System means dry weight unless otherwise specified in the Harmonized System; and
 - (g) for Chapters 1 to 40, a good shall not be considered to be originating solely by reason of mere dilution with water or another substance that does not materially alter the characteristics of the good.

2. The following definitions apply:

chapter means a chapter of the Harmonized System;

heading means the first four digits in the tariff classification number under the Harmonized System;

section means a section of the Harmonized System;

subheading means the first six digits in the tariff classification number under the Harmonized System.

Note:

For purposes of this chapter, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of this definition:

- (a) dissolving in water or other solvents;
- (b) the elimination of solvents, including solvent water; or
- (c) the addition or elimination of water of crystallization.

For purposes of heading 27.10, the following processes confer origin:

- (a) Atmospheric distillation: A separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapor then condensed into different liquefied fractions.
- (b) Vacuum distillation: Distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation.

Note:

For purposes of this section, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a good is an originating good:

- (a) dissolution in water or in another solvent;
- (b) the elimination of solvents including solvent water; or

For purposes of this section, a “chemical reaction” is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a good is an originating good:

- (a) dissolution in water or another solvent;
- (b) the elimination of solvents including solvent water; or

Rule 3: Purification

A good of Chapters 39 and 40 that is subject to purification shall be treated as an originating good provided that the purification occurs in the territory of one or both of the Parties and results in the following:

- (a) the elimination of not less than 80 percent of the content of existing impurities; or
- (b) the reduction or elimination of impurities resulting in a good suitable:
 - (i) as a pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;
 - (ii) as a chemical product or reagent for analytical, diagnostic, or laboratory uses;

 - (vii) for carriers used in a separation process; or
 - (viii) for nuclear grade uses.

Rule 4: Change in Particle Size

A good of Chapter 39 shall be treated as an originating good if the deliberate and controlled modification in particle size of a good, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which is relevant to the purposes of the resulting good and having different essential physical or chemical characteristics from the input materials, occurs in the territory of one or both of the Parties.

Rule 5: Isomer Separation
